# Towing Inflatable Equipment Guidelines

British Water Ski & Wakeboard has no responsibility for anything to do with inflatable equipment. Nevertheless ski boats and PWC are usually used to tow such equipment and often the drivers involved are quite inexperienced so it is prudent in these Safety Recommendations for drivers to be made aware of the hazards involved.

Inflatable equipment includes a variety of designs including “Ringos”, “tubes”, “Biscuits”, “Sausages”, “Bananas”, “Sledges”, and many other trade names. They are all designed to carry at least one rider and usually more while being towed along the water.

The riders have no control of the path of the equipment and it must be clearly understood that the boat driver determines what happens to the equipment and its occupants. For example when the boat turns sharply the equipment will slide across the water in a manner described as “on the whip”. If the boat is driven too fast or over water that is too rough, the equipment may porpoise dive into the water or capsize. Many serious accidents have occurred because riders of inflatable equipment have been sent into collision with other boats, jetties, or shore banks when drivers do not allow sufficient turning room. Other accidents have occurred from riders being thrown out at excessive speed. All riders of inflatable devices are advised to wear protective helmets. Serious injuries have occurred when unprotected heads have banged together during falls.

## **SAFETY RECOMMENDATIONS FOR INFLATABLE EQUIPMENT**

### THE BOAT DRIVER

1. Always follow the manufacturer’s recommendations.
2. Do not overload equipment with riders.
3. Check that your boat insurance covers inflatable equipment.
4. Always have an observer.
5. Tow in straight lines with wide slow turns.
6. Do not put inflatables on the “whip”.
7. Do not increase speed on turns.
8. Do not try to throw the rider out.
9. The rider must wear a ski vest (buoyancy aid).
10. Do not tow an inflatable over a jump or through a slalom course.
11. Do not tow an inflatable within a tow ropes distance of any solid object.
12. Always use a tow line of the type recommended by the manufacturers.
13. Check the water is clear of floating debris.
14. Check that local rules allow towed inflatables on the water.
15. Do not tow an inflatable over the wash of other boats.
16. Do not tow an inflatable with an unaccompanied small child.
17. Check the inflatable is in good repair, including the ropes and towing “eye”.
18. Check the inflatable is firmly connected to the towing craft.
19. Make sure the rider knows British Water Ski & Wakeboard aural and hand signals.
20. Do not continue a tow if a rider falls.
21. Use standard procedures for crowded waters.

21. Use standard procedures for crowded waters.
22. Always approach a fallen rider on the driver's side.
23. Switch off the engine before boarding riders from the water.
24. Do not start a tow until the rider shouts "hit it".
25. Keep away from other boats and other water users.
26. Do not tow an inflatable at night.
27. Do not tow an inflatable in shallow water.
28. Pay close attention to position of fallen skiers especially for recovery

#### RIDERS OF INFLATABLE EQUIPMENT

1. Wear a ski vest (buoyancy aid).
2. Wear head protection (soft and visible)
3. Do not stand up.
4. Do not try to throw other riders overboard.
5. Do not attempt to steer an inflatable.
6. Know British Water Ski & Wakeboard standard hand and aural signals.
7. Do not attempt to abandon an inflatable during a tow.
8. Do not hold the towing rope.
9. Do not fasten any part of your body to an inflatable.
10. If a fall takes place, put your hands in the air to indicate "OK".
11. Do not shout hit it until the rope is taught and all riders are prepared.
12. Do not ride an inflatable unless you can swim
